## SDR Ventures Advises JK Concepts, Inc. on Acquisition by JEB Capital Partners

SDR Ventures is pleased to announce that [JK Concepts, Inc.](#) ("JK Concepts" or "the Company") has been acquired by [JEB Capital Partners](#) ("JEB"). SDR served as the exclusive [sell-side advisor](#) to JK Concepts throughout the transaction process.

Headquartered in Denver, CO, JK Concepts is an architectural millwork firm specializing in the design, fabrication, and installation of custom commercial woodwork. With over four decades of experience, the Company serves a wide range of industries—including healthcare, education, hospitality, government, and corporate offices. JK Concepts provides high-quality craftsmanship that meets AWI standards and often incorporates LEED and FSC-certified materials. From custom boardroom tables and museum displays to reception desks and medical cabinetry, JK Concepts creates tailored millwork solutions that bring both function and aesthetics to commercial interiors.

Marge Johnson, President and Owner of JK Concepts, commented, "JK Concepts has been my life's work, and selling the business was one of the most emotional decisions I've ever made. But from the beginning, Mike and the SDR team understood how personal this was for me. They helped me find a partner in JEB who truly values the people, the craftsmanship, and the culture we've built. Knowing the Company is in good hands gives me peace—and excitement—for what comes next. I couldn't be more grateful."

In addition to their custom work, JK Concepts is a wholesale distributor of pre-manufactured cabinetry and casework, supporting cost-effective solutions for multifamily housing and large-scale commercial projects. Their ability to provide both custom and standardized options allows them to meet a broad range of client needs while maintaining a focus on quality, precision, and reliability. The Company executes projects locally and nationally, combining small-business responsiveness with large-project capability.

"With our resources and expertise, we're excited for JK Concepts to grow and expand into new markets," commented John Banks of JEB Capital Partners. "We are committed to preserving the Company's culture and legacy that Marge did a wonderful job building."

"Marge built an exceptional business grounded in quality, craftsmanship, and integrity, and it was important to her—and to us—to find the right partner to carry that forward. JEB truly understands and respects what makes JK Concepts special, and we're confident this partnership sets the Company up for long-term growth and success," concluded Mike Grande, [Managing Director](#) at SDR Ventures.
